DESCRIPTION

Specifically formulated with the neck and décolleté in mind, Age Reversal Neck Cream is an advanced, hydrating emulsion working to defy time and gravity to restructure, as well as tighten and firm the neck's delicate skin. This innovative product effectively brightens pigmentation related conditions, while minimizing fine lines and wrinkles. The numerous peptide complexes, that makeup the Age Reversal Neck Cream, revitalize the skin by strengthening the building blocks responsible for keeping this skin intact. Peptides, found within the Age Reversal Neck Cream, work efficaciously to stimulate elastin and collagen, improving fine lines and wrinkles, laxity and texture of the skin. Other specialized peptides in this product effectively function as a firming agent to fight against skin sagging, improving resistance to gravity. In addition, a multitude of antioxidants, ranging from Vitamin E and other botanical extracts, protect against free radicals and sun damage. Age Reversal Neck Cream works to increase the moisture levels, resulting in smooth, hydrated skin.
